43 production n8n workflows, zero errors

250/day automation runs across a live customer lifecycle

14 connected systems, one-command health audit

13+ sites shipped & maintained, 8 platforms

1 Summary

Automation specialist who maps a customer journey end to end, then makes the systems carry it. At SNAC I am the **sole technical owner of a live UK storefront and its automation layer**: 43 n8n workflows move each customer from sign-up through payment, confirmation, delivery and support, with a human step only where a decision is needed. At a VA agency I worked with **Airbnb hosts, real-estate agents, fashion brands and coaches** in their CRMs, GoHighLevel, Make and Zapier, and I ran bookings and guest messaging for a tourist farm. I use AI where it removes real work and review its output before a customer sees it.

2 Experience

AI Automation & Growth Systems Manager

Jun 2026 - Present

SNAC (Snac Fresh) · UK food e-commerce & B2B supplier marketplace · Remote via BruntWork

- Sole technical owner of the storefront, supplier portal and 14 connected systems, incl. Stripe, HubSpot and Xero
- Mapped the customer lifecycle, lead → sign-up → verification → payment → fulfilment → reorder, into one documented flow
- Run 43 n8n workflows (~250 runs/day, zero errors) fired by webhooks, CRM stage changes and schedules, each wired to a failure alarm
- Automated messages at each stage: welcome, payment, abandoned-cart and delivery emails, plus 8 WhatsApp templates
- Human hand-off for exceptions: reject windows, inactivity alerts, WhatsApp and email requests turned into HubSpot tickets
- HMAC-verified webhooks, OAuth, retries and backoff; a one-command audit sweeps all 14 systems (55 pass / 6 warn / 0 fail)

`Shopify / Liquid` `n8n` `Supabase` `Stripe` `HubSpot` `Xero` `WhatsApp API` `Webhooks` `REST APIs` `Git`

Freelance Developer & Virtual Assistant

Oct 2025 - Present

Self-employed · Remote clients

- Build automations and AI tools, including a Claude API classifier that scores job postings against a profile
- Website management, Shopify and WordPress builds, and VA support: inbox, calendar, research and operations

`Claude API` `OpenAI API` `Python` `Shopify` `WordPress / Elementor` `Figma`

Full-Stack Web Developer & Head Social Media Manager

Aug 2023 - Oct 2025

VCONNX Virtual Solutions · VA agency serving real estate, Airbnb hosting, fashion and coaching clients

- Worked in client stacks on Airbnb, CRMs, GoHighLevel, Make and Zapier, maintaining lead capture, follow-up and booking automations
- Led full-stack builds end to end: websites, e-commerce stores, online courses and portfolio sites
- Managed a 7-person creative team (video editors, designers, social media associates); built the SEO Geotagger tool

`Airbnb` `GoHighLevel` `Make` `Zapier` `CRM systems` `Shopify` `WordPress` `SEO`

Graphic Designer & Data Analyst

Dec 2022 - Apr 2023

Lokal Lab Siargao Inc.

- Designed internal graphics, reports and documents; analysed business data to support day-to-day operations

`Canva` `Figma` `Spreadsheets` `Data analysis` `Reporting`

Technical Staff & Digital Marketing Specialist

Mar 2022 - Aug 2022

Bayatakan Farm · Tourist farm with guided tours

- Handled guest bookings through the booking system and Facebook Business inbox: inquiries, confirmations, guest questions
- Coordinated a 5-person team (tour guides, kitchen staff); ran social media and SEO for direct bookings; tech support for staff

`Facebook Business Suite` `Booking system` `Guest messaging` `SEO` `Social media` `Tech support`

3 Skills & tools

AUTOMATION	n8n, Make, Zapier, webhooks, REST APIs, JSON, OAuth · triggers, conditions, retries, alerting, data mapping
BOOKING	Airbnb, booking systems, GoHighLevel calendars, Facebook Business Suite · messaging sequences, hand-off rules
AI	Claude, ChatGPT, Claude and OpenAI APIs, ElevenLabs, Twilio · voice receptionists, classifiers, prompts with human review
CRM & PAY	HubSpot, GoHighLevel, Stripe, Xero, WhatsApp Business API, Resend
WEB	Shopify / Liquid, WordPress, Wix, Squarespace, HTML, CSS, JavaScript, React · booking flows, forms, SEO, Core Web Vitals
DATA & CLOUD	Supabase, Python, AWS Lambda, Vercel
OPS & DOCS	Git, GitHub, Playwright end-to-end tests · process maps, runbooks, daily EOD reports · Asana, Slack, Notion

4 Selected projects

AUTOMATION · CUSTOMER LIFECYCLE

Snac Fresh lifecycle automation

snacfresh.food

Sign-up to payment, delivery proof, invoice, loyalty and reorder, run by 43 n8n workflows with failure alarms.

PROCESS MAPPING · DOCUMENTATION

End-to-end flow map

Snac Fresh · HTML + PDF

Every step from lead to reorder, tagged with its systems and automations, marked live or planned.

AI · VOICE RECEPTIONIST

Garden Quote AI System

clarklindleysuan.com/projects/garden-quote-system

Multi-client voice AI receptionist (ElevenLabs, Twilio): intake flows, dynamic answers, live lead handling.

AI · AUTOMATION

Advanced Cold Call Dashboard

clarklindleysuan.com/projects/cold-call-dashboard-improved

AI-powered outreach system: live call state, auto-ending calls, dynamic lead tracking and call summaries.

AI · DATA ANALYSIS

Job-fit classifier

clarklindleysuan.com/blog-ai-classifier

Scores OnlineJobs.ph listings against my profile: fewer applications, higher reply rate. Written up as a case study.

WEB APP · SEO TOOLS

SEO Geotagger

geotagger-vconnx.vercel.app

Real-time geolocation tagging tool that embeds geo-metadata into content for local SEO.

WEBSITE · PERFORMANCE · SEO

Dead Threads speed rescue

deadthreads.com

SEO restructure, asset compression and Core Web Vitals fixes for a slow store. Organic visibility and sales up.

WEBSITES · REAL ESTATE · COACHING

Brand sites & redesigns

clarklindleysuan.com/#work

Dan Nelson Real Estate, Dr. Zrinka (coaching), Outlaw Fitness, Matsui Hair USA, The Dirt Army, BodegaLink Finder.

5 Clients say

> Clark built my Shopify store from scratch and I was blown away. Within the first month we started generating consistent revenue.

Liban Egal · Shopify client

> Our store was slow and barely getting organic traffic. Clark overhauled SEO, optimised every asset and improved our Core Web Vitals dramatically.

Josh · Dead Threads

> Three Figma mockups incredibly fast for our homepage concept. Exactly the premium feel we were looking for. Hired immediately after the design test.

Gavin · Balterley, fashion e-commerce

> A synchronized video player demo with live chat and viewer count, so fast it was almost unbelievable. Minor bug fixed within hours with extra UX polish.

Ozan · Apex Growth, SaaS MVP

6 Education

Mindanao State University	2023
Northeastern Mindanao Colleges	2019
Taft National High School	2017

7 How I work

Map first, automate second. I map the process from first inquiry to follow-up and mark every manual step, then automate what is safe and leave a clear human step for the rest. Every workflow gets a test run, a failure alarm and a written doc, plus daily written EOD reports.
